SUMMARY

I am a Senior Front-End Developer with over 10 years of experience in the software industry. I have extensive expertise in Angular (from version 2 to the latest), React, Ionic, React Native, Vue, and Next.js. I am proficient in various UI libraries, including Bootstrap, Tailwind, and Material Design. For state management, I utilize NGRX, Redux, Zustand, and Pinia for Vue. Throughout my career, I have developed and managed applications across multiple domains, including banking, ERP, insurance, and fintech solutions. Notable projects include a fintech solution portal for OMAL Queen in UAE and a portal for Qatar's Ministry of Baladiya.
